

Haven

A digital public good for platform- and vendor independent Cloud hosting

Jacco Brouwer, Dutch Association of Municipalities (VNGr)
Policy coordinator on Cloud & Digitalization/ Program manager Haven

Dutch municipalities are the largest public-sector organization in the Netherlands

342 Dutch municipalities (345 incl. the BES/Cariben)

170.000 Civil Servants

Every municipality approximately runs
400 – 500 Software applications (> 75% SaaS)

90 – 95% Is provided through market parties

Annual combined IT spendings > 2 billion euro

Municipalities base their decisions on ...

What?

Cost?

Safe?

Support?

'New' strategic motives

Geo political developments

Visible- and invisible threats

**Digital sovereignty is crucial
and strategic**

National

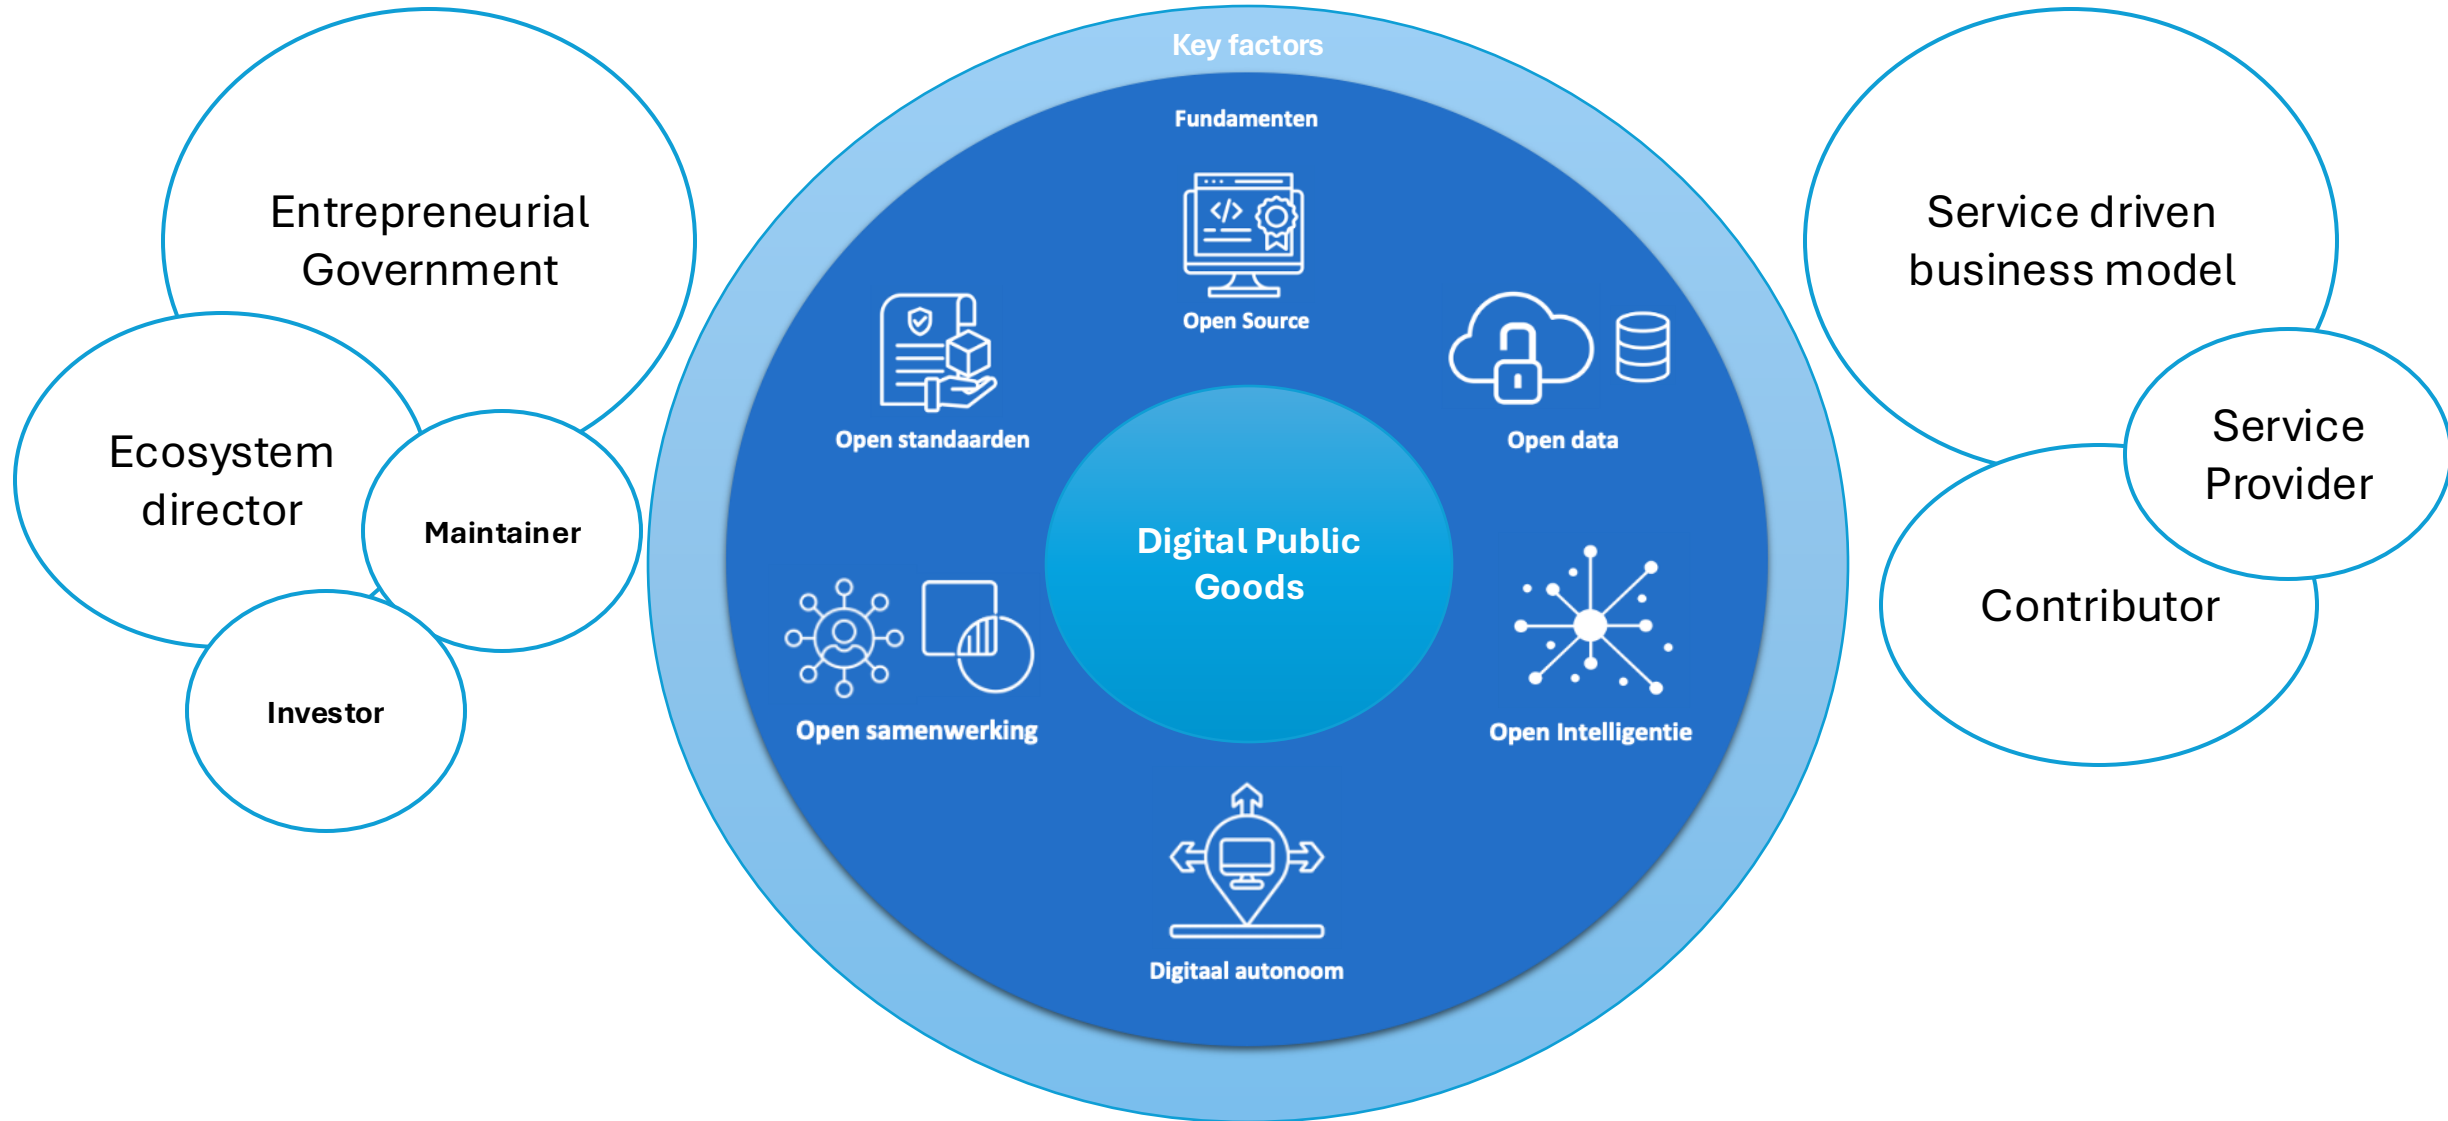

Economic
independence

Business community

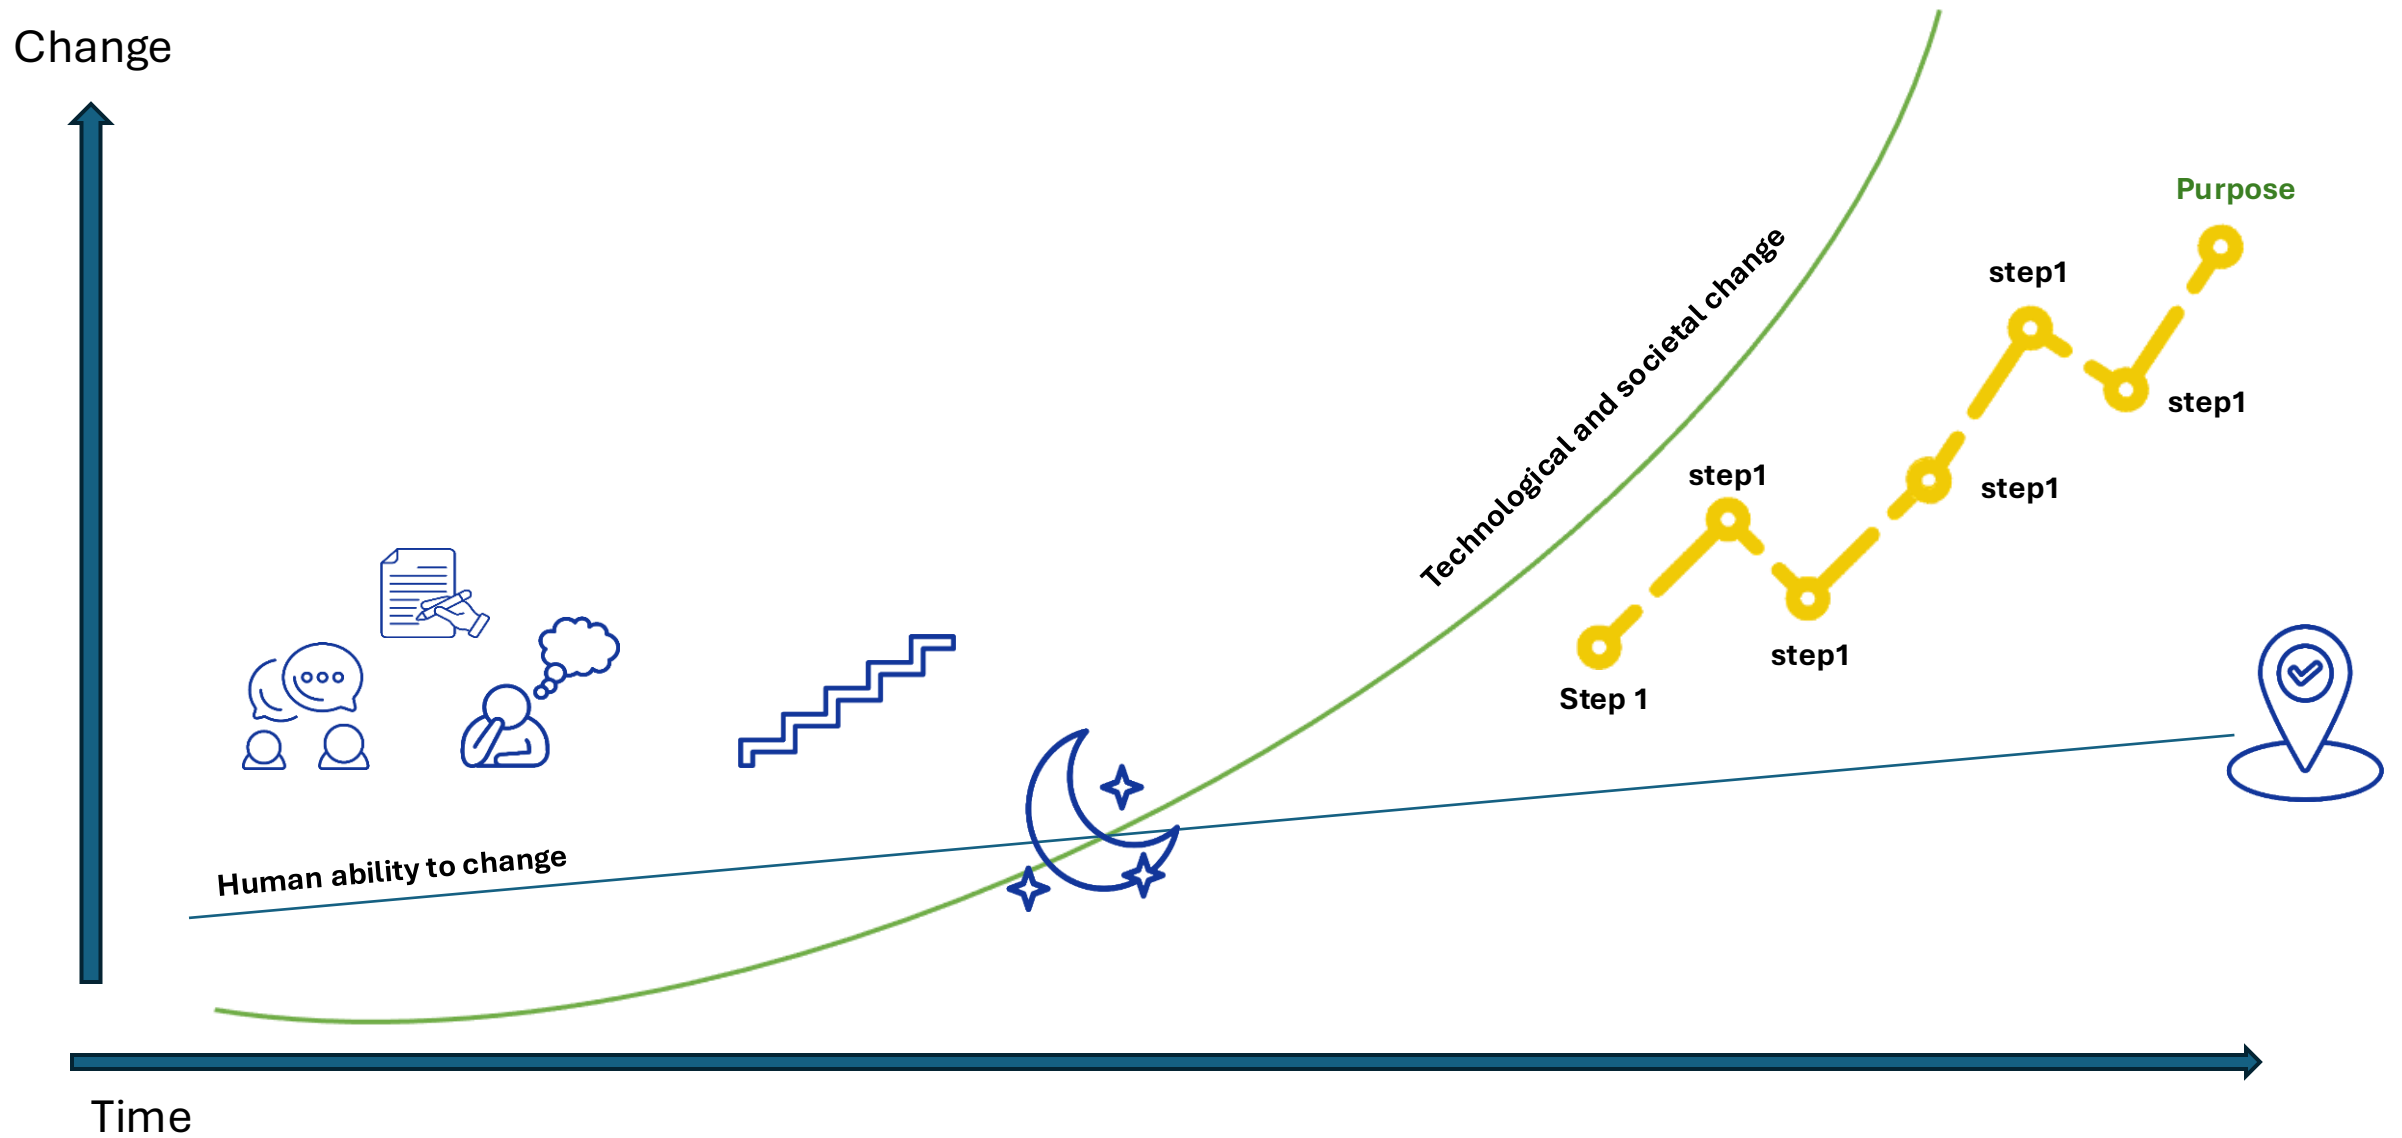

**Safeguarding the
democratic system**

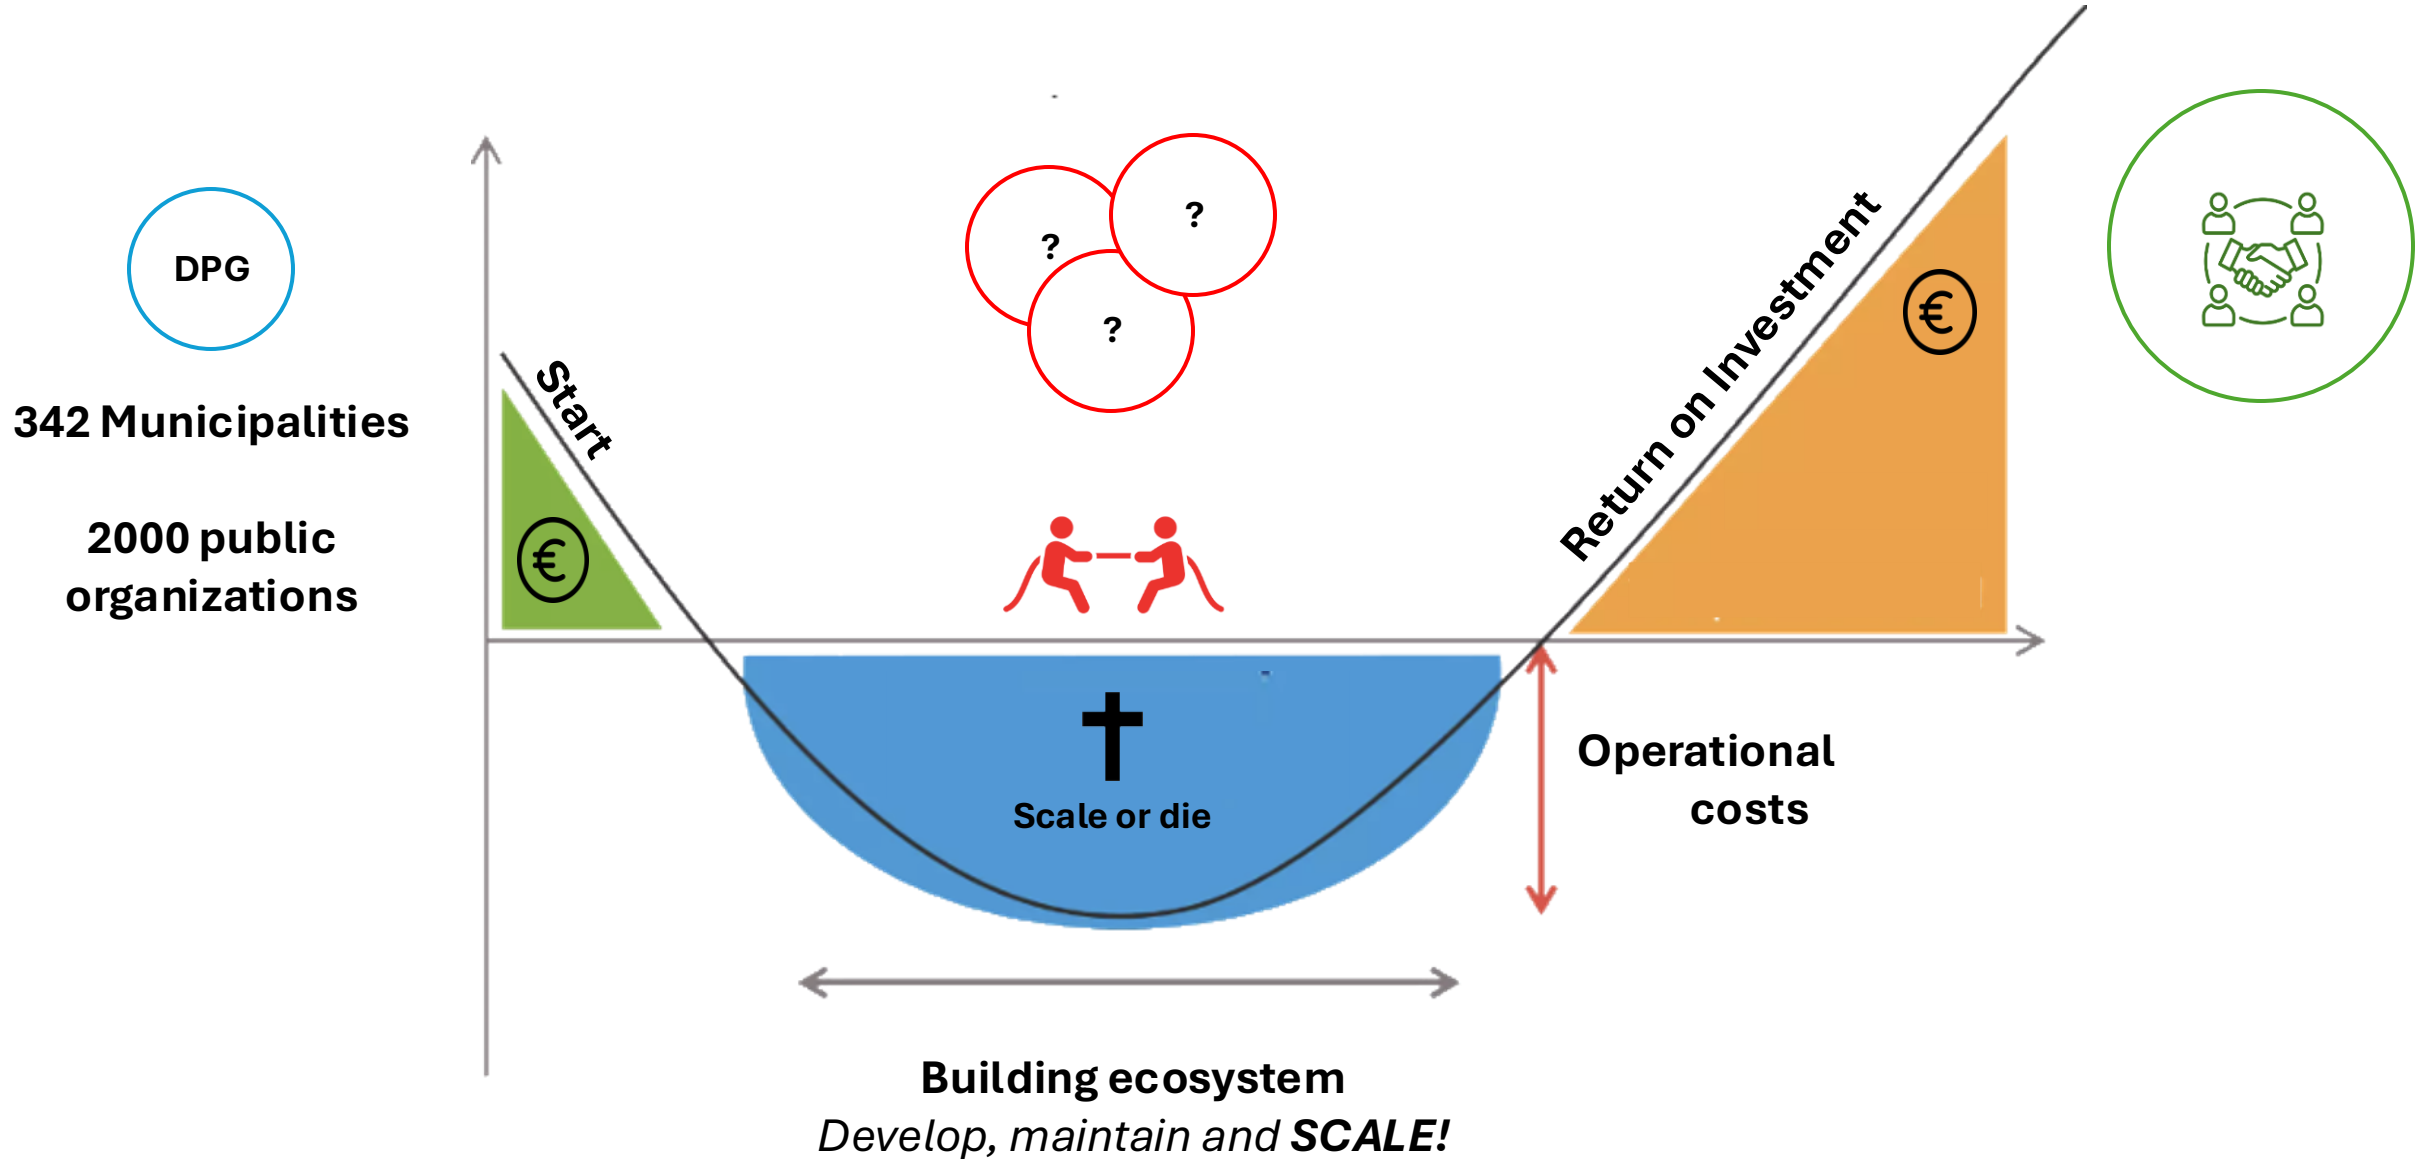

Ecosystem for 'Digital Public Goods'

New ways of working

Investing in Digital Public Goods
